## **PROSTHETIC ADJUSTMENT APPOINTMENTS**

Any time that you make an appointment for an adjustment to your prosthesis, TCOP asks that you call your doctor and have them fax over a dispensing prescription (RX), or you can bring it in. In order to bill your insurance, we need an RX for any supplies we provide to you that day.

The RX should say:

**“Repair prosthetic and dispense supplies as needed”**

The RX can be faxed to 651-771-6553.
